

Modular systems for commercial interiors

visplay

We think in long-lasting systems

Visplay develops modular furnishing systems for stores, commercial spaces, and office environments. Our solutions express the brand identity and creative vision of our clients. Thanks to their high quality and flexible construction, they can be used in ever-changing configurations over many years.

Versatile and technically refined

The Visplay catalog features modular systems designed to support a variety of presentation concepts. Our technically advanced and rigorously tested systems ensure high product quality and user safety. With an easy ordering process and a long-term replenishment guarantee, they remain available for years to come.

Displays

Label

 Mono 20 Mono 12 Area 13

Single point support systems

Mono and Area are single-point support systems, ideal for individualized and easily adjustable product displays - whether mounted on a wall or placed in the center of a room, they adapt seamlessly to different functional and aesthetic requirements.

 Omnio Qubo 25 Qubo Wall Kado

Shelving and structural systems

Whether it's for wall-mounted or freestanding setups in nearly any desired configuration, shelving and structural systems are the answer. Visplay's flexible systems - Omnio, Qubo and Kado - are easy to use and provide a stage for modern product displays, especially with their intelligent electrification solutions.

 Xero Twin Xero L Xero 4 Beam

Vertical support systems

Where displays need frequent adjustments and varying heights of structures and product carriers are required, vertical support systems like Xero or Beam by Visplay come into their own. They remain visually discreet while offering elegantly simple electrification options.

 Invisible 6 Invisible 3

Horizontal support systems

Invisible 3 and Invisible 6 are horizontal support systems that efficiently utilize wall space while remaining unobtrusively in the background. With inspiring possibilities like lighting and digital devices, products can be perfectly showcased – ideal for the modern, high-end store.

Qubo M

Mobile modules

Qubo M provides maximum flexibility for central room setups. Thanks to electrification for lighting and digital displays, these modules meet contemporary demands. They can be outfitted with various product carriers, altered, and repositioned on the fly. Designed in a subtly modern style, Qubo M integrates seamlessly with any wall system.

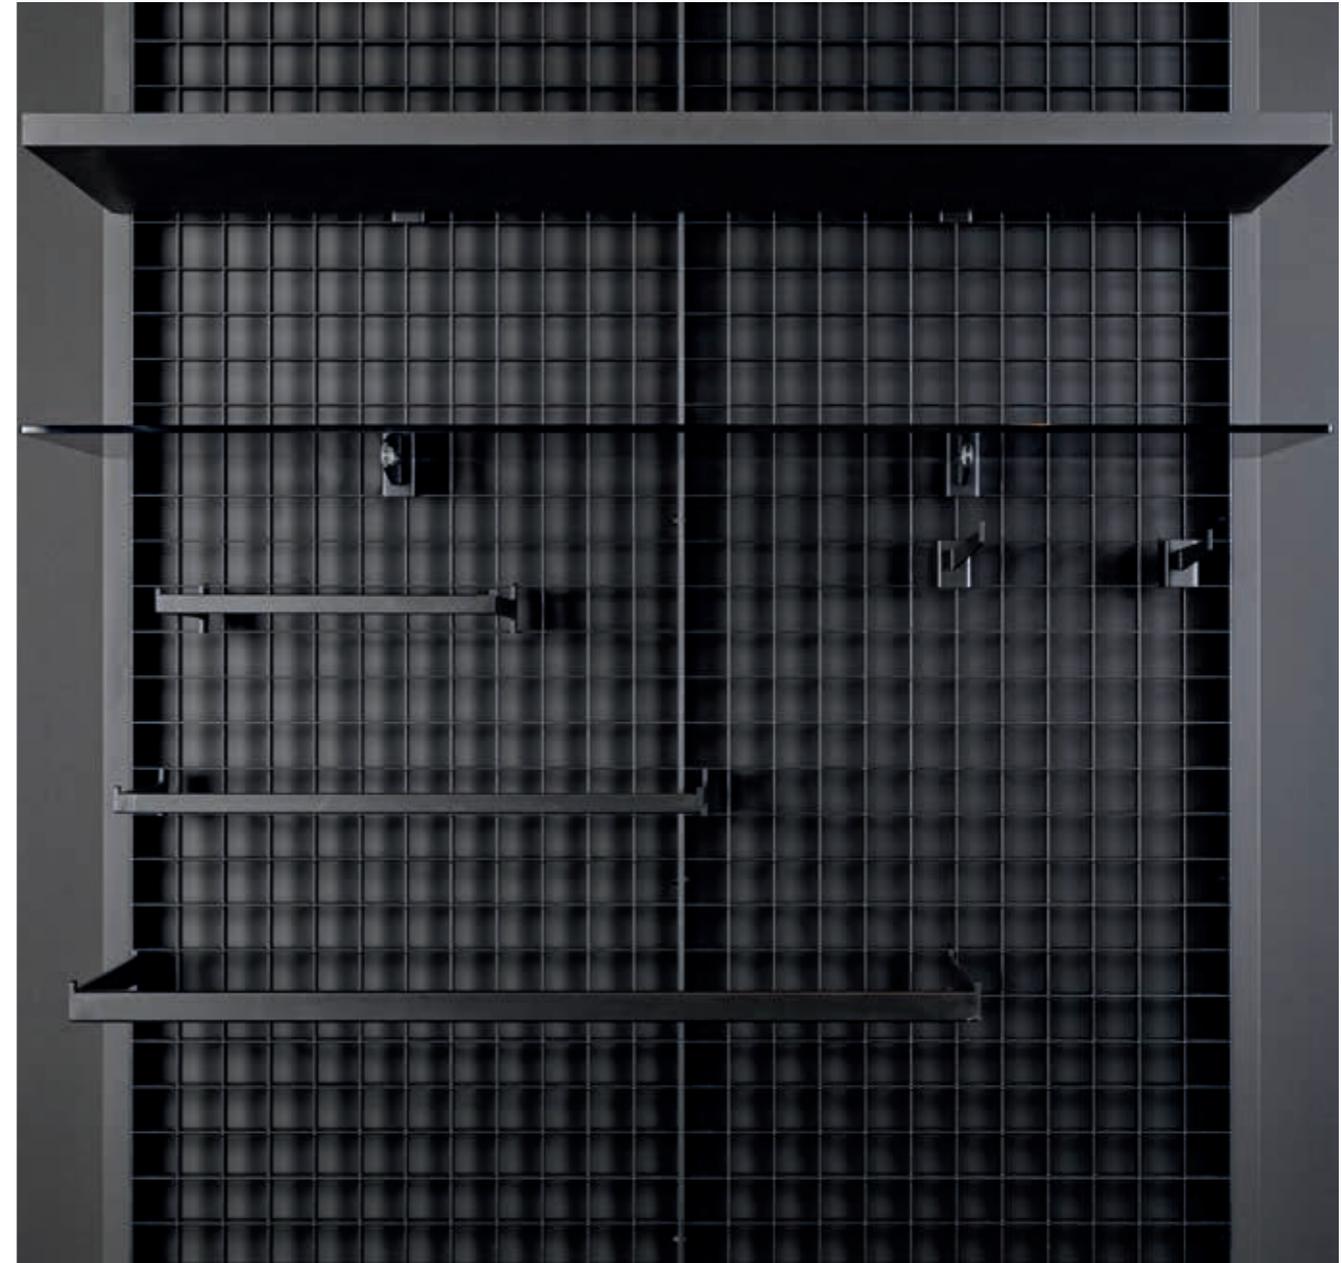

Air

Multi-Lane

Ceiling support systems

Multi-Lane is a ceiling-mounted system that enables captivating, floating product displays, offering a unique alternative to conventional store fixtures. The freestanding Air support system can be used to shape and structure spaces - for shop fittings, exhibition stands, workspaces and more.

Grid 50

Surface support systems

Grid 50, with its dynamic and technical design, is perfect for young, active brands. Whether wall-mounted or freestanding, this surface support system can be quickly customized with decorative elements and product carriers, making adjustments effortless.

Omnio
Office

Omnio Office

The modular system Omnio Office creates flexible and functional work environments. It combines fixed structures with mobile modules that can be easily adapted to new needs. Integrated features like USB-C ports, power lines, and acoustic panels ensure a seamless working environment.

Showtime for your products

With Visplay's electrified systems, you have power where you need it: everywhere. It's all invisible - power rails and cables are elegantly integrated, powering illuminated product carriers, digital devices, or electronic price tags. This way, you can present your products in the best light, showcase items at the point of sale, and use power and light in the office intelligently.

You have a need, we have the solution

Customised solutions

Our systems can be customised to your requirements. For example, special dimensions, special colours and surfaces or customised product carriers can be implemented. We offer customised projects from an order volume of €20,000.

Exclusive developments

In addition to individual customisations, we also offer you the development of an exclusive system. This system solution fully reflects your ideas and requirements. We offer exclusive bespoke projects from an order volume of €100,000.

Quality that convincingly delivers

Quality, safety, and sustainability are at the core of our work. We design durable, modular systems that can be easily adapted to evolving needs. Our products are made from high-quality materials and are precisely crafted to ensure a long lifespan. They undergo rigorous testing, and their safety is confirmed by CE and UL certifications from government-recognized institutions. Sustainability is a central concern for us, which is why we promote resource-efficient production processes and recycling. A detailed overview of our sustainability goals and current practices can be found in Visplay's annual sustainability report.

At the heart of design culture

At the Visplay showroom, you'll discover modern displays of our systems tailored to various industries. Situated on the Vitra Campus in Weil am Rhein, near Basel, our showroom is located alongside our headquarters. The Vitra Campus, known for its remarkable contemporary architecture, draws hundreds of thousands of visitors each year. We invite you to explore our showroom and spend a day on the Vitra Campus.
