

# Materials Omnio Office

Omnio Office is a modular system, the material composition of which varies depending on the configuration. This planning example gives you an impression of the materials from which Omnio Office can be configured.

Length: 2.87 m  
 Depth: 2.14 m  
 Height: 1.93 m  
 Weight: 340.52 kg

● Steel	43,51 %
● Wood	29,29 %
● Concrete (weights)	9,40 %
● Die-cast zinc*	8,23 %
● ARCHISONIC®	2,94 %
● Plastic	2,48 %
● Aluminium	2,08 %
● Electronic components	2,02 %
● Other	0,05 %

\*Die-cast zinc is an alloy that is predominantly made of zinc. The ZP0410 and ZP0430 alloys we use also contain small amounts of aluminium, copper and magnesium. Products made from die-cast zinc are 100% recyclable.

Visplay strives to achieve the highest level of product quality and safety. All processes in our company are subject to a management system that is certified in accordance with the ISO 9001 quality standard and the ISO 14001 environmental standard.
